PSYCHOMETRIKA—VOL. 35, NO. 4
DECEMBER, 1970

INDEX FOR VOLUME 35

ARTICLES

Baker, Frank B. (with John Gurland). Some comments on an item analysis procedure. 393–394.

Bock, R. Darrell (with Marcus Lieberman). Fitting a response model for dichotomously scored items. 179–198.

Carroll, Douglas J. (with Jih Jie Chang). Analysis of individual differences in multidimensional scaling via an N-way generalization of Eckart-Young decomposition. 283–320.

Carroll, Robert M. (with Peter H. Schönemann). Fitting one matrix to another under choice of a central dilation and a rigid motion. 245–256.

Castellan, N. John Jr. Determination of joint distributions from marginal distributions in dichotomous systems. 439–454.

Chang, Jih Jie (with Douglas Carroll). Analysis of individual differences in multidimensional scaling via an N-way generalization of Eckart-Young decomposition. 283–320.

Cliff, Norman. The relation between sample and population characteristic vectors. 163–178.

Corballis, M. C. (with R. E. Traub). Longitudinal factor analysis. 79–98.

Crawford, Charles B. (with George A. Ferguson). A general rotation criterion and its use in orthogonal rotation. 321–332.

Cliff, Norman. The relation between sample and population characteristic vectors. 163–178.

Corballis, M. C. (with R. E. Traub). Longitudinal factor analysis. 79–98.

Crawford, Charles B. (with George A. Ferguson). A general rotation criterion and its use in orthogonal rotation. 321–332.

Degerman, Richard. Multidimensional analysis of complex structure: Mixtures of class and quantitative variation. 475–491.

Emerson, Phillip L. Simple reaction time with Markovian evolution of Gaussian discriminal processes. 99–110.

Evans, Glen T. The analysis of categorizing behavior. 367–392.

Ferguson, George A. (with Charles B. Crawford). A general rotation criterion and its use in orthogonal rotation. 321–332.

Fleiss, Joseph L. Estimating the reliability of interview data. 143–162.

Gruvaeus, Gunnar T. A general approach to Procrustes pattern rotation. 493–505.

Gurland, John (with Frank B. Baker). Some comments on an item analysis procedure. 393–394.

Kaiser, Henry F. A second generation little jiffy. 401–415.

Jackson, Paul H. (with Melvin R. Novick). Maximizing the validity of a unit weight composite as a function of relative component length with a fixed total testing time. 333–348.

Jennrich, Robert I. Orthogonal rotation algorithms. 229–236.

Lieberman, Marcus (with R. Darrell Bock). Fitting a response model for dichotomously scored items. 179–198.

Lord, Frederick M. Item characteristic curves as estimated without knowledge of their mathematical form—a confrontation of Birnbaum's logistical model. 43–50.

Mackenzie, Kenneth D. A set theoretic analysis of group interaction. 23–41.

Marascuilo, Leonard A. Extensions of the significance test for one-parameter signal detection hypotheses. 237–244.

McCormack, Robert L. A comparison of three predictor selection techniques in multiple regression. 257–272.

McDonald, Roderick P. Three common factor models for groups of variables. 111–128.

Micko H. C. A "halo" model for multidimensional ratio scaling. 199–228.

Novick, Melvin R. (with Paul H. Jackson). Maximizing the validity of a unit weight composite as a function of relative component length with a fixed total testing time. 333–348.

Polson, Peter G. Statistical methods for a general theory of all-or-none learning. 51–72.

Proctor, C. H. A probabilistic formulation and statistical analysis of Guttman scaling. 73–78.

Schönemann, Peter H. Fitting a simplex symmetrically. 1–21.

Schönemann, Peter H. On metric multidimensional unfolding. 349–366.

Schönemann, Peter H. (with Robert M. Carroll). Fitting one matrix to another under choice of a central dilation and a rigid motion. 245–256.

Timm, Neil H. The estimation of variance-covariance and correlation matrices from incomplete data. 417–437.

Traub, R. E. (with M. C. Corballis). Longitudinal factor analysis. 79–98.

Young, Forrest W. Nonmetric multidimensional scaling: Recovery of metric information. 455–473.

REVIEWS

Carroll, J. Douglas. Review of *Construction of Preference Spaces*, by L. Debeke. 278–280.

Cliff, Norman. Review of *Statistics and Style*, by Lubomir Dolezel and Richard W. Bailey. 395–396.

Collins, James R. (with Kenneth D. Hopkins). Review of *Handbook of Measurement and Assessment in Behavioral Sciences*, by Dean K. Whitla. 281–282.

Cornfield, Jerome (with Oscar Kempthorne). Review of *Statistics: Uncertainty and Behavior*, by I. Richard Savage. 129–135.

Cronbach, Lee J. Review of *On the Theory of Achievement Test Items*, by John R. Bormuth. 509–511.

Green, Bert F. Jr. Review of *Decision Analysis: Introductory Lectures on Choice Under Uncertainty*, by Howard Raiffa. 277–278.

Heermann, Emil. Review of *Theory of Measurement*, by J. Pfanzagl. 507–509.

Hopkins, Kenneth D. (with James R. Collins). Review of *Handbook of Measurement and Assessment in Behavioral Sciences*, by Dean K. Whitla. 281–282.

Horn, John L. Review of *The Nature of Human Intelligence*, by J. P. Guilford. 273–276.

Kempthorne, Oscar (with Jerome Cornfield). Review of *Statistics: Uncertainty and Behavior*, by I. Richard Savage. 129–135.

Norton, Daniel P. Review of *Psychological Testing*, by Anne Anastasi. 135–138.

Shub, Allen N. Review of *Introduction to Linear Models and the Design and Analysis of Experimentals*, by William Mendenhall. 397–398.
